

## The 'Hello' Package ... *Our newest promotion for businesses*

Imagine you're an electrician in a crowded room. A myriad of other businesses around you and a fierce competitive environment. Imagine someone shouting 'I need an Electrician!' but nobody answers.

This is your chance to grasp the opportunity and take control of the situation. This is the time for you to go up to that person and say 'Hello...I'm the electrician you need!'

Imagine you didn't introduce yourself and the person didn't know you existed!

A wasted opportunity for a potential new customer just because they didn't know you were there. It's easy to say 'Hello' in real life and now it's easy to say 'Hello' on the internet.

We've recently introduced a new package specifically designed for small or medium sized businesses that don't want to lose out to their competition but don't have the time or the resources to do anything about it themselves, and the greatest advantage of all is the price!

The cost of our new package is significantly less than the average potential yield from **only one** new customer, whatever your business!

So don't delay...say 'Hello'

The 'Hello' Package is for small businesses and available from Web Net International at **only £99!** (take advantage now ... sign and return this form and we'll get back to you immediately ... your site can be live within **24 hours!**)

This package is the internet equivalent of a business card and an introduction, rather than a detailed brochure. It's a quick and informative summary to the internet community and tells people firstly that you exist and secondly what you do. It's just like saying 'Hello' and introducing yourself.

The information on the site can include the following,

- Name & Address
- Brief Description
- Logo & Photograph
- Contact Information (email, phone, etc)
- Opening Hours (if applicable)

Having recently launched, this package is already proving to be the most popular yet, so now you don't have to put off what you've been meaning to do for a while

... Say 'Hello!'
